

187

Township 2 North Range 36 East

Mounds Diablo Base and Meridian.

Preliminary to commencing this survey I ran West on a blank line on the South boundary of Sec. 36 and at 40.02 ^{ch.} found the $\frac{1}{4}$ sec. cor. and at 80.03 ^{ch.} found the sec. cor.

My compass will therefore run the same line as the exterior boundaries and the chaining practically agrees.

Survey Commenced January 18th A.D. 1884 with a Young's Engineers transit

I commence at the cor. to Secs. 1, 2, 35 and 36 on the South boundary which is a trap stone 18x12x6 in.

Thence
