T 17 N. R 22 E. M. D. M.

bet Secs 25 & 36 and at 40.18
Obs found the 74 Sec Cor and
at 79.86 Ch found the Soc
Cor. My Transit will therefore
run (with the increased
variation) the same line
as the exterior boundaries
Aug 4, 1887.

Survey commenced Aug 5, 1887. with
an Engineers Transit of Eckel & Gimb-
off's make N.Y. - I commence
at the Cor to Secs 25, 26, 35 & 36, which
is a Basalt Stone 24x8x8 ins set in
a mound of stones marked with
1 notch on S & 1 notch on E edges.
Situating near the top of a
Basaltic Mountain about
700 ft above surrounding plain
Thence I run
