

Exteriors

T40N. R. 65E

S Bdy

Thence I run West on a random line setting temporary corners at every 40 and 80 chains and at 3 miles and 80 links reach a point 1.45 chs south of the S.E. cor of T40N. R. 64E

which is a redwood post 4" x 4" properly marked for T40N. R. 64E
 Mark same post T40N. R. 65E S31 on N.E. face cut 6 notches on E edge and dug a pit 24" x 18" x 12" on E. 6 ft dist from post

The correction for the true line will therefore be 48 lks N per mile and the course will be S 89° 40' E
