

Subdivisions T40 N R67 E M D M

Before commencing this subdivision of this Trp I examine the adjustments of my instrument and find them correct.

On Sept 27th 1894 at 7 a m I place my instrument over the cor to secs 12.35 & 36 on S bdy of Trp and find the variation of line as previously established by be to be $17^{\circ} 30' E$.

Thence I run N^W bet secs 35 & 36.
Va. $17^{\circ} 30' E$.

Along E slope of main mountain ridge.

25.00 Cross Head of spur bears N $60^{\circ} E$ & dis

40.00 Set a post 3 ft long 3 in sq with marked stone 12 in in the ground
