

Subdivisions T. 40 N.

Chs. General Description

The land embraced in this township is mountainous, and high rolling, and covered with a fine growth of grass, affording excellent range for stock. The soil ranges from 1st to 4th rate. There are no settlements in the township. There is some agricultural land in Sec. 36. on Manj's River, and along the South Fork of Hawk's Creek and its tributaries. The South Fork of Hawk's Creek, a stream of pure, fresh, mountain water, averaging about 8 ins. wide, flows through the North Western
