

an.
The Standard Parallel North.

R. 59 E. M. Dm.

Survey Commenced with a Juley
Solar Transit. Oct. 21st 1887.

On the night of Oct. 20th 1887
I took an observation of the Star
Polaris in accordance with
instructions contained in the
Manual of Surveys, and drew
sightings by the meridian thus
established.

Before commencing this survey
I test my transit on the
meridian previously estab-
lished and find it to be
correct.

From the Standard Cor. to
Sps. 41 N. R. 59 + 60 E. Viz:
a Miller 3 ft. long - pins square.
