

first to the cor to sec 5-5-778
and afterwards to the cor to
sec 4-5-879 — 3-4-9710 and
2-3-10711. I find all of

these cor's conform to the original
Field Notes; and in running
North to close upon the fourth Bdy
of T39NR57E find the closure
agreeing with the closure of the
Tp Line on the West Bdy of the
Tp; while the closure from
the cor to sec 1-2-11712 North
agrees with the closure on the
East Bdy of the Tp and there
is a difference of nearly 7.00 ac
between the closures of the East
and West Bdy of the Tp.

In retracing the old Tp Line
on the North Bdy to destroy it
I found the N.E. cor of the Tp
