

Exterior Boundaries T37N. R39E.

Chavis

On the night of June 10 - 1888 I took an observation on the Star Polaris in accordance with instructions contained in the Manual of Surveys, and drove pickets on the line thus established

Survey commenced June 11 1888 with a Solar Transit. Improved

Before commencing this survey I test my ^{Transit} compass on the line established last night and find it correct

I proceed to retrace the South boundary of the Township and begin at the cor to Tps 36 & 37 N
N R's 39 & 40 E. which is a willow stick 1" x 1" x 2 ft above ground with 6 notches on each edge, other
