

Township 36 North

212

Range 34 East

Mount Diablo

Meridian

### General Description

The East part of this Township is on the West-slope of Blue Mountain and its foothills. It is covered with some scrub juniper wood. There is some water in this Tp.

Secs 12. 13. 24 & 25 are very rough and precipitous. The balance of the Tp consists of rolling sand hills and mesa land and is covered with a dense growth of greasewood and sage brush nearly as large as the wood on the mountain sides.

Traces of roads appear in some places but are obliterated in other places by the sand drifted over it by the wind storms.

U. S. Deputy Surveyor.
