

5th Standard Parallel N. through Range 34 E

In subdividing T. 26 N. R. 34 E I am unable to find the corners on the 5th Standard, the mounds being destroyed & the stones small & lying loose on the surface.

I therefore resurvey the 5th Standard Parallel as follows.

Beginning, September 25th 1893,
at the corner to Tps 26 N. R. 33 & 34 E. M.D.M. which is a rock 10 x 10 x 5 inches set in place of an old mound, with a W. & L. G. Gurley Solar Transit in perfect adjustment and a steel chain which I have examined with my Standard and found correct.
