

Exterior to 39 N. R. 62 E. m.d.m.

At 7 a.m. August 17th I set the transit over the corner to Tps 38 & 39 N. Rs. 61 & 62 E. and find the ^{variation of the} meridian established by me last night to be $17^{\circ}30' E$.

I verify the adjustments of my transit at this point and find them correct.

Having run a blank line along the south boundary I found many of the old corners missing and others defaced but that the corner to Tps 38 & 39 N. Rs. 61 & 62 E. is N. 2 chs & 10 lks. and W 6 miles 16 chs and 50 lks distant.

The township south of this line having been subdivided I re-survey the south boundary as follows.
