

20.

131

Township 36 N

Range

22 E

Tow

MD

Meridian.

I continue my flank line and am unable to find any ^{marked} traces of old corners till at 30th chs 43 lks I find at 1 ch 83 lks N. of line a stone 12 x 12 in 6 in. above ground firmly set & properly marked as described in the original field notes for the corner to sees 4, 5, 32 & 33 and at 466 chs. 21 lks. & 1 ch. 60 lks N find the corner to Tps. 36 & 37 N. R. 21 & 22 E which is a rock firmly set and properly marked as described by the Surveyor General.

As this north boundary is about 13 chs less than appears by the original field notes I therefore run south on a blank line on the west boundary of the Township in order to finally determine the position & condition of the exterior before proceeding with my subdivisions, and at 47.93 find 14 lks. cor. 8 lks E and at 87.92 find sec. cor. to sees 16, 7 & 12 which is a rock firmly set & properly marked as described by the Surveyor General
