

6. 204 E. bdy - Rect.

Township 36 N. Range 23 E

M. S.

Meridian.

At this point at
8^h 50' A.M. L.M.T. Nov, 15th
I find the true meridian
by setting off $40^{\circ} 57'$ on the
lat. arc. - $18^{\circ} 32' 9''$ on
the decl. arc.

Then I run N. on blank
line on E. bdy sec, 36

at 40.00 chs I find no
evidence of cor.

at 59.93 chs I find
the old 7th stand,
closing cor.;

The post is cotton-
wood and badly de-
cayed, but splits and
round show plainly
as described by sur-
veyor general.

at 80.02 chs. I find
the cor. to sec 25-36
on E. bdy as described
