

South boundary T. 33 N. R. 53 E

From the corner to Tps. 32 & 33 N. R. 53 & 54 E. I run W. on a random line along the S. bdy. of T. 33 N. R. 53 E setting temporary $\frac{7}{8}$ sec. and sec. cor. and at 483 chs. 20 lks intersect the W. bdy of the T. at a point 1 ch. 15 lks. S of the T. cor. which is a post in mound of earth with traces of pits.

I restore mound & pits at the same point.

The falling answers to a correction of 19 lks or 0.8' S. per mile.
