

General Description

Except the S.E. cor & part of sec
6 all of this township is mountainous.
The South Fork of the Humboldt
traverses the S.W. cor. mostly in a
deep gorge.

There are enclosed fields in secs 26,
~~28~~, 34 & 35 and 36

The former watered by Ten mile brook
and that in 36 by the Humboldt River.
There is good grazing throughout
the township.

There is a general growth of scrub
juniper too bushy & stunted
to be available for either fire
or bearing trees.
