

General Description

The greater part of this township is grazing land classed as 3rd & 4th rate but in addition to the agricultural lands (2nd & 3rd rate in preceding notes) there is a considerable quantity of good land in bottoms & basins not traversed by my lines.

There is some fir & pine timber of little market value being small scattering & not easy of access.

The township is exceptionally well watered by Manfroy, Camp, Sand & Wildcat Creeks and their affluents.
