

General Description.

This township lies about 4 miles west of the stage road from Wells to San Jacinto, Nevada. There is almost no level land suitable for the growing of crops but excellent grazing is found almost every where in the township. It is well watered by Bull Camp and another Creek which rise in the west tier of sections & flow in easterly direction across the township.

The w. bdy is very near to the main divide between the waters of Manj's River & the tributaries of the Salmon River.
