

D 417 TR 55 E

and astronomical observations
Having taken level and
Culmination adjustments
previous to taking any
observations. I construct
Instrument - to be in Balance
long adjustment:

D 417 TR 55 E

Having previously Referred
8th Sta parallel which is
S Side of this Sp. I run North
on a Plank line between
31 and 32,

39.20

Old 14 CN which is nearly obliterated
between W 70 lbs dist.

78.40

I continue North and at-
find traces of old CN of lines
29-30-31 and 32 between W
60 lbs dist. I continue
line North. And find old
lines irregular in align-
ment and measure-
ment. With all old CNs
partly or wholly obliterated
I therefore Resurvey
as follows.
