

W Bdy I 38 N R 53 E

agrees with AM Polar and
astronomical observations ^{May Dec 17 40 E}

Thence I run North on a flank
line on E Bdy see 36-

4000
8000

find No trace of 1/4 corr
" " " see cr.

N on E Bdy 25-

4000
8000

find No trace of 1/4 corr

The corr of sees 24 and 25 has E

3 lks. I continue line North and

at 5 miles 79.64 Find the old corr
of T 38 and 39 N R 52 E has W
20 lks dist? Old corr is a stake

badly decayed I reestablish
corr by setting a brass stake

10 x 6 x 5 in in a mound of stone 3 ft
face and 2 ft high. Marked with

6 notches on the S.W. and N edges

T 39 on N.W. R 52 on S.W. face. Thence I
return to Corr lks. 37 and 38 N

Range 52 E And Resurvey as
follows.
