S Bdy T. 30 N. R. 50 E.

June 26, 1901 At 7.20 A.M.
L. m. t. I set off $40^{\circ}26'$ on
Lat arc $23^{\circ}24'$ on decl arc and
determine a true meridian
by solar observation at the
Closing cor of Tps 29 N.
Rgs 49 and 50 E as previously
described.

Thence Drun

to a random line on S bdy of
T 30 N.

30.10 fall 4 lbs N of old
mound and pits supposed
to be cor of secs 31 and 32

Thence I start chaining from
this cor at 40.00 and 80.00

Chain points find slight traces
of old cor. At 400 Chs
find traces of old T. cor.

Therefore I survey as follows.
Destroy all trace of old T. cor
and rebuild as follows

Set a granite stone $12 \times 10 \times 6$ in
9 ins in the ground for cor of
Tps 30 N. Rgs 50 and 51 E.

Marked with 6 notches on N
E and W edges T. 30 N. R. 51 E on
