

July 15<sup>th</sup> 1903.

At the cor. of sec's 7, 12, 13, and 18  
on the East Boundary of T. 37 N.  
R. 61 E. I set off  $41^{\circ} 4'$  on the  
latitude arc and  $21^{\circ} 41'$  on  
the declination arc and at  
 $7^h 12^m$  L. M. T. determine  
a true meridian with the  
solar

Thence I run S. on E. bound-  
ary of township  $320.00$  chs.  
From this point the flag  
on the summit of the moun-  
tains set July 14<sup>th</sup> is  
plainly visible and is  
due west from my sta-  
tion. I therefore establish  
here the township cor.  
to 36 and 37 N. Ranges 61  
and 62 East.

I set a limestone  $15 \times 10 \times 8$   
ins.  $10$  ins. in ground  
marked,

T. 37 N. on N.W. face
