

Retracement of Subdivisions of T. 35 N., R. 60 E.

Lebanon Aug. 15th, 1903.

I began at the standard closing cor. to sec's 3 and 4 on the W. boundary to T. 35 N. R. 60 E. and set off $40^{\circ}55'$ on the latitude arc and $14^{\circ}20'$ on the declination arc and at 7 h. 5 m. l. m. t. determine a true meridian with the solar

Thence I run

$S 0^{\circ}3'E$ bet sec's 3 and 4,

49.23 The $\frac{1}{4}$ sec. cor. bet sec's 3 and 4 lies 4 links W.

89.23 Old sec. cor. to sec's 3, 4, 9 and 10 lies 2.73 chs W. of my line.

I continued the retracement of these lines around the entire exterior of the new work to be executed finding a large part of the corners but the ground was so rough that these lines had been very imperfectly run and I found it necessary to resurvey all of the lines adjacent to the new work in order to close my own work properly. The line between
