

Re Survey East bdy T16 NR 43 E. M. D. M.

Chain.

Survey commenced June 24, 1905 and executed with a Litz transit No 1882 the horizontal limb being provided with two double verniers placed opposite to each other and reading to 1" of an arc.

The instrument was tested and examined on the true meridian at San Francisco and found correct as per Certificate dated August 19, 1904.

Starting at Standard Cor. of T16 N. R 43 E. 44 E. for a description of which and record of observation from which this line was deflected see field notes of Survey of 3rd Standard parallel.

Thence I run

North on blank line bet. Secs. 31st & 36

40.00 find no trace of old $\frac{1}{4}$ sec. cor. set temp:
79.40 To point 42nd sec. N. of Cor. to Secs. 25, 30, 31st &
36 which is an old stone mound post gone
I re-establish said Cor. at the same point
as follows set slate stone 30x12x10 in. 10
in in ground to bed rock surrounded
by mound of stone $3\frac{1}{2}$ ft. base $1\frac{1}{2}$ ft. high
marked with 1 notch on S. and 5 notches on
N. edges. raise mound of stone 4 ft. base
2 ft. high N. of Cor.
