

## RESURVEY of W. Bdy. T: 19 N., R: 25 E.

Sept. 3-1905 8<sup>h</sup> 30<sup>m</sup> am. Cont.  
Commencing at the Established  
cor. of Tps. 18<sup>th</sup> and 19 N., Rgs. 24<sup>th</sup> and  
25 E. (For description see South  
boundary notes)

I set off  $7^{\circ}38'30''$  N on decl. arc  
and  $39^{\circ}22'$  N. on latitude arc  
and determined a true meridian  
with solar, this line checking  
my line within 1 minute of arc  
as turned from the S. Bdy.  
I therefore consider the solar  
and instrument in good  
adjustment-; and run

North on a random line bet:  
Rgs. 24<sup>th</sup> and 25 E. through T<sup>p</sup> 19 N.  
Setting temp.  $\frac{1}{4}$  sec. and sec. cor.  
at 40.00<sup>th</sup> and 80.00<sup>th</sup> chs.

39.95 I find  $\frac{1}{4}$  sec. cor. of sec.  
31 and 36, 15 chs. East of my line  
79.90 chs. the cor. of Secs. 25<sup>th</sup> and 36.  
30 chs. East of line

119.79 chs. the  $\frac{1}{4}$  sec. cor. of Secs. 25<sup>th</sup> and 30  
52 chs. East of line
