GENERAL DESCRIPTION

This township extends from the east slope of the Kawich Mountains on the west to Reveille Valley on the eastern portion, the soil of the entire township is generally gravelly and covered with a dense growth of desert brush, while a scattering growth of cedar and pinon timber is found in the western portion of the township. There is no surface water found in this township. There are no indications of mineral found in this township.

Frank T. Roberts
U.S. Deputy Surveyor
