GENERAL DESCRIPTION.

This township lies in the Amargosa Desert, with the exception of the NE. portion which extends into Crater Flat.

There is a range of hills running across the NE. portion of the township separating Amargosa Desert from Crater Flat, with this exception the township is nearly level, the soil, gravelly and rocky and covered with a dense growth of desert brush.

The Las Vegas and Tonopah Railroad, runs diagonally across this township.

Rose's Wells, a station on this railroad, is located in what will be sec. 23 after the township is subdivided.

Rose's Wells consists of a depot, water tank and a well, with several tents for railroad employees.

There is no surface water or timber in this township.

There are some indications of mineral found in this township.
