

## Resurvey of Subdivisions of T. 18 N., R. 43 E.

Chains March 21, 1909

At 7h 15 m a.m., l.m.t., I set off  $39^{\circ} 22'$  on the lat. arc, and  $0^{\circ} 10'$  N. on the decl. arc, and determine a meridian with the solar at the cor. to secs. 33, and 34 on the S. bdy. of T. 18 N., R. 43 E.

Thence I retrace the line bet. secs. 33, and 34, which I find has a bearing N.  $0^{\circ} 17'$  E. and is 79.96 chs. in length. I retrace the line bet. secs. 27 and 28, which bears N.  $0^{\circ} 17'$  E. and is 79.96 chs. in length. I retrace the line bet. secs. 22 and 27, which I find has a bearing N.  $89^{\circ} 30'$  W. and is 80 chs. in length. I retrace the line bet. secs. 22 and 23, which bears N.  $0^{\circ} 21'$  E. and is 80 chs. in length. I retrace the line bet. secs. 14 and 23, which has a bearing of N.  $89^{\circ} 40'$  W. and is 79.63 chs. in length. I retrace the E. bdy. of sec. 14, which has a bearing of N.  $0^{\circ} 21'$  E. and is 80 chs. in length. I retrace the E. bdy. of sec. 11, which has a bearing of N.  $0^{\circ} 21'$  E. and is 80 chs. in length. I retrace the E. bdy. of sec. 2, which has a bearing of N.  $0^{\circ} 21'$  E. and is 80.42 chs. in length. I retrace also the N. bdy. of sec. 1, which I find to bear N.  $89^{\circ} 55'$  E. and is 79.85 chs. in length.

March 21, 1909.

March 22, 1909.

At 7 h 10 m a.m., l.m.t., I set off  $39^{\circ} 22'$  on the lat. arc, and  $0^{\circ} 34'$  N. on the decl. arc, and determine a meridian with the solar at the cor. to secs. 33 and 34 on the S. bdy. of T. 18 N., R. 43 E.

Thence I run

N.  $0^{\circ} 17'$  E. bet. secs. 33 and 34.

3.30 Ravine, course NW.,

8.00 Ridge, bears NW. and SE.,

21.00 Ravine, course NW.,
