I set a granite stone 16x6x6 ins. 11 ins. in the ground for closing cor of secs. 6 and 7, marked CC on E. with 1 groove on the N. and 5 grooves on the S. face and raise a mound of stone 2 ft. base $1\frac{1}{2}$ ft. high E. of cor. Pits impracticable. Land, mountainous. Soil, stony, 4th rate. Timber, sagebrush and mahogany. Mountainous land 77.71 chains.

August 27th. 1909.

## GENERAL DESCRIPTION.

This township is nearly all mountainous land and a portion is very high and rough. There are only two or three sections that are rolling in character. It is well watered, and numerous springs flow the entire year. It is a very good cattle range. The waters from this township flow to Pine valley on the E. and to Cortez Valley on the W.
