

Resurvey of East Boundary of T. 21 N. R. 23 E.

Chains.

and 0' 21" E. of the meridian established by the Polaris observation. Therefore I conclude the adjustments of the instrument are satisfactory.

The Magnetic bearing of the true meridian at 8 hrs. is N. 180 30' W. the angle thus determined gives the magnetic declination 180 30' E.

I commence at the Standard cor. of Tps. 20 and 21 N. R's. 23 and 24 E. and retrace ,

North bet. secs. 31 and 36.

40.33 Fall 37 lks. E. of Old $\frac{1}{4}$ sec. cor. Line bears N. 00 32' W.

81.05 Fall ⁶¹~~50~~ lks. E. of the old cor. of secs. 25, 30, 31 and 36.

Line bears N. 00 31' W.

North bet. secs. 25 and 30.

40.58 Fall 16 lks. E. of the old $\frac{1}{4}$ sec. cor. Line bears N. 00 14' W

79.94 Fall 14 lks W. of the old cor. of secs. 19, 24, 25 and 30.

Line bears N. 00 26' E.

North bet. secs. 19 and 24.

40.28 Fall 21 lks. E. of the old $\frac{1}{4}$ sec. cor. Line bears N. 00 ^{18'}~~15'~~ W.

47.03 Fall 24 $\frac{1}{2}$ lks E. of the closing cor. of Pyramid Lake

Indian Reservation; Using the bearing N. 00 ^{18'}~~15'~~ W. I continue northward; from this closing cor. and at 80.00 chs. I set a temp. sec. cor. as original survey calls for no cor.

Thence I return to the Closing corner on the Reservation line just described and run a random line N. 20 45' W. until I Intersect the closing corner on the line bet. secs. 13 and 24.

Thence I run a random line East to an intersection with the line previously run N. bet. secs. 19 and 24. where I establish the ^{temporary} cor. of secs. 13, 18, 19 and 24, which point falls N. 00 ^{18'}~~15'~~ W. 82.12 chs. from the cor. of secs. 25, 30, 31 and 36.

West, bet. secs. 13 and 24.

12.92 Intersect the closing cor. on the line of the Pyramid

Lake Indian Reservation, at 134 M 53.89 chs. Reservation line bears S. 20 45' E.

40.00 No $\frac{1}{4}$ cor. found after a diligent search.
