General Description.

This tp. is composed almost entirely of barren, basalt mountains.

Secs. 25 and 36 are mineralized, in sec. 36 is a mine with extensive workings and in sec. 25, considerable work has been done in the shape of prospect holes, also in sec. 25 there is a chalk deposit. Sec. 31 also contains a chalk deposit, a chalk mine is working in sec. 36, T18N, R21E,

Outside of secs. 25, 31 and 36, there is little of value in this tp.
