

Fractional Subdivision of T. 40 N., R. 26 E.

Chains

length of the east half of the south boundary of old sec. 32 was found by recent retracement to be 40.12 chs., the position for the restoration of the C. C. of secs. 4 and 5 is found by the following proportion: 40.00 : 40.12 :: 18.68 : 18.74. I therefore, at a point 18.74 chs. S. 89° 58' W. of the old S. C. of secs. 32 and 33, set an iron post, 3 ft. long, 2 ins. diam., 20 ins. in the ground to bed rock, and in a mound of stone, for C. C. of secs. 4 and 5, with brass cap mkd.

and raise a mound of stone, 2 ft. base, 1½ ft. high, S. of cor. This C. C. is 4.92 chs. N. 89° 58' E. of the new S. C. of secs. 32 and 33.

The length of the old line between secs. 4 and 5 being given as 79.87 chs., and the length of the restored line being 81.55 chs., the position for the ¼ sec. cor. is found by the following proportion: 79.87 : 81.55 :: 39.87 : 40.71.

From the C. C. I run

S. 9° 53' E., on a true line, between secs. 4 and 5.

Over mountainous land.

Desc. 250 ft. on S. slope to gulch.

34.00 A gulch, dry, course SE.; asc. 30 ft. on NE. slope.

38.00 The top of the ascent; desc. 120 ft. on SE. slope.

40.71 Set an iron post, 3 ft. long, 1 in. diam., 24 ins. in the ground, for ¼ sec. cor., with brass cap mkd.
