		July 6, 1912. The southing of the S. Bdy., from the cor. of Tps. 24 and 25 N., Rs. 18 and 19 E., to the cor. of T.24 and 25. N., R. 18 E., established by me July 1, 1912, is 86 lks. Since the S. Bdy. is defective in both alinement and measurement, it will be necessary to establish a section- al correction line, therefore at 80.00 chs.; minus the southing of the S. Bdy., north of the cor. of Tps. 24 and 25 N., Rs. 18 and 19 E., which point is 1.19 chs. S. of the corner of secs. 30 and 31, on the E. Bdy. I set a basalt stone 16x11x7 ins. 12 ins. in the
		ground for corner of secs. 25 and 36, marked with 5 notches on the N. edge, and 1 notch on the S. edge, and raise a mound of stone 2 ft. base, 1½ ft. high, W. of cor. Thence I run W. on a true line between secs. 25 and 36, over S. slope of low basalt mountain, establishing a sectional correc-
