

Resurvey of the W. bdy. of T. 41 N., R. 38 E.

Chains

October 15, 1913.

Preliminary to the resurvey of the west bdy. of T. 41 N., R. 38 E., I retrace the S., W. and N. bdys. of sec. 36, T. 41 N., R. 37 E., and find it to be a full and complete section.

Beginning at the Standard Cor. ^{40 and} of Tps 41 N., Rs. 37 and 38 E., at 8h., a. m., 1. m. t., I set off $8^{\circ} 25'$ S. on the decl. arc, and $41^{\circ} 22'$ N., on the lat. arc, and determine a meridian with the solar:

Thence I retrace

North on a random line bet. secs. 31 and 36.

40.07 Intersect a point 48 lks. E. of the old $\frac{1}{4}$ sec. cor., which is a granite rock, 20 X 12 X 7 ins., marked $\frac{1}{4}$ on W. face and set in a stone mound.

Course of this half mile is N. $0^{\circ} 41'$ W.

I continue same line north, and at

80.95 Intersect a point 55 lks. E. of the old cor. of secs. 25, 30, 31 and 36, which is a granite rock, 10 X 8 X 7 ins. above ground, marked with 1 groove on S., and 5 grooves on N. faces and witnessed by an earth mound W. of cor., and trace of pits in each sec.

Course of last half mile is N. $0^{\circ} 06'$ W.

Beginning at the cor. of secs. 25, 30, 31 and 36, I retrace

North on a random line bet. secs. 25 and 30.

40.00 After diligent search fail to find any trace of the old $\frac{1}{4}$ sec. cor., I set temp. cor. and continue north.

78.96 Intersect a point 32 lks. W. of the old cor. of secs. 19, 24, 25 and 30, which is a granite rock, 12 X 10 X 5 ins. above ground, marked with 2 grooves on S. and 4 grooves on N. faces and witnessed by a small stone mound W. of cor.

Course of this mile is N. $0^{\circ} 14'$ E.
