

2.      Retracement of part of 7th Std.Par.N., thru R.62 E.

Chains

April 27, 1915: At 10 h 0 m a.m., l.m.t., I set off 40° 58'N. on the lat. arc; 13°40'N. on the decl. arc; and determine a meridian with the solar at the old Standard Corner of secs. 33 and 34, which is a three-cornered cedar post, 40x3x3 ins. with faint scribe marks, lying on an old mound of earth.

Thence I run

East on a retracement of the 7th Std. Par. N., along the South Bdy. of sec. 34.

40.00 After diligent search I find no trace of old corner.

80.00 After diligent search I find no trace of old corner.

I continue along the South Bdy. of sec. 35.

40.21 The old Std.  $\frac{1}{4}$  cor. of sec. 35 bears S. 71 lks. It is a badly decayed stake 1xlx36 ins., with faint scribe marks lying on an old mound of earth.

The course of this  $1\frac{1}{2}$  miles is S.89°40'E., and the proportionate distance 40.07 chs.

I continue E. along the South Bdy. of sec. 35, from same point N. of cor.

80.32 Old Standard Cor. of secs. 35 and 36 bears S.79 lks. It is a badly decayed post about 24 ins. long, lying on an old mound of earth.

The course of the last  $\frac{1}{2}$  mile is S.89°53'E. and the length is 40.11 chs.

At the 80.32 ch. point I set off 40°58'N. on the lat. arc and observe the sun on the meridian at 11 h 58m a.m., l.m.t. The resulting declination is 13° 41'N.

From point 79 lks. N. of the old Std. section corner, I continue E. along the S. Bdy. of sec. 36.

40.00 The old Std.  $\frac{1}{4}$  sec. cor. for sec. 36 bears S. 99 lks. It is an old post 2x2x36 ins., marked  $\frac{1}{4}$  and lying on an old mound of earth.

The course of this  $\frac{1}{2}$  mile is S.89°43'E.

80.17 The old Std. Cor. of Tps. 36 N., Rs. 62 and 63 E., bears South 115 lks. It is a badly decayed post with faint marks lying on an old mound of earth.

The course of the last  $\frac{1}{2}$  mile is S.89°46'E., and the length is 40.17 chs.

The latitude at this corner is 40°58'N., and the longitude 114°56'W.

All declinations are figured 7 h 40 m 1915.   
NOTE: No closing corners were found on this line. When in the field, each day, when near April 27, 1915, I set off and a test was made for declination at present

Resurvey of part of 7th Std.Par.N.,thru R.62 E.

May 3, 1915: In the old mound of earth I set an iron post 3 ft. long, 3 ins. in dia., 24 ins. in the ground for the Standard Cor. of secs. 33 and 34, with brass cap mkd:

T36N	R62E
S	C
S33	S34
1915	

I set the old post alongside and dig pits 24xl8xl2 ins., crosswise on each line E. and W., 3 ft. and N. of post 7 ft. dist., and raise a mound of earth 4 ft. base, 2 ft. high, N. of cor.

Thence I run

S.89°40'E. on a resurvey of the South Bdy. of sec. 34. Over gently rolling land, over gradual ascent through heavy sagebrush.

2.10 Road to Tobar, bears NW. and SE.

8.20 Old road, bears NE. and SW.

15.40 Old road, bears NE. and SW.

40.07 The proportional distance. Set an iron post 3 ft. long, 1 in. in dia., 26 ins. in the ground for the
