

RETRACEMENT OF THE WEST BOUNDARY OF T.23 N., R.26 E.

Chains

Survey commenced September 9, 1911, and was executed with a Young & Sons transit with solar attachment.

The instrument was examined, tested on the true meridian at Reno, Nevada, found correct and was approved by the Surveyor General for Nevada, August 12, 1911.

I begin at the cor. of Tps. 22 and 23 N., rs. 25 and 26 E. and at 8h. 00m., a. m., l.m.t., I set off 39°49' on the lat. arc; 5°36'30" N. on the decl. arc, and determine a meridain with the solar.

Thence, I retrace North bet. secs. 31 and 36.

Follow along top of ridge.

40.09 A black igneous stone, 10x10x6 ins. in a mound of stone, mkd. ¼ on the west face, bears E. 6 lks. Course N0°05'E

51.00 Descend W. slope of ridge.

80.10 Cor. of secs. 25,30,31 and 36, a black igneous stone, 12x12x12 ins. in a mound of stone, mkd. with 1 notch on the S. the S. and 5 notches on the N. faces, bears E. 21 lks. Course N0°13'E  
Land high mountains.

Soil rocky.

No timber; desert brush scattering.

Mountainous land, 80.00 chs.

Thence, I continue to retrace North along the same line, bet. secs. 25 and 30.

Descend over heavily rolling land.

40.00 A black igneous stone, 10x10x10 ins. in a mound of stone, mkd. ¼ on the W. face, bears E. 24 lks. Course, N0°03'E

45.30 Top of low ridge, bears E. and W.

80.17 Cor of secs. 19,24,25 and 30, a syenite rock, 12x10x8 ins. in a mound of stone, mkd. with 2 notches on the south, and 4 notches on the north, bears E. 40 lks. Course, N0°14'E  
Land heavily rolling.

Soil gravel and sand.

No timber; desert brush.
