

SUBDIVISION OF T.24 N., R.26 E.

Chains

ft. high, W. of cor.

80.35 The cor. of secs. 5,6,7 and 8.

Land rolling.

Soil sandy; 3rd. rate.

No timber; desert brush.

October 3, 1911.

GENERAL DESCRIPTION.

The greater portion of this township covered by this survey is mountainous land, the formation being principally basaltic. Generally, the soil is a deep loose sand mixed with gravel in the low portions and is rocky on the mountain tops and sides.

There is little or no grass, or timber, the only vegetation being a low brown desert brush. There are no settlers in the township, nor is there any water.

William H. Bragg
Associate transitman.

Boundaries of T. 24 N., R. 26 E.

Latitudes, departures and closing errors.
