

SUBDIVISION OF T. 26 N., R. 29 E.

Chains.

80.00 The cor. of secs. 7, 8, 17 and 18.

Land mountainous.

Soil, rocky; 4th. rate.

No timber; desert brush.

Mountainous land, 80.00 chs.

Knowing that a line from the cor. of secs. 7, 8, 17 and 18, parallel to the S. bdy. of sec. 18, would intersect the W. bdy. of the tp. at a distance exceeding the prescribed limits of 50 lks. from the old cor. on said W. bdy., I therefore run from said cor. of secs. 7, 8, 17 and 18 parallel to said S. bdy.

S. 89° 58' W., on a true line bet. secs. 7 and 18.

10.30 Dry wash, 20 lks. wide, course, N.W.; ascend gently.

20.00 Beginning of steep ascent.

28.70 Face of cliffs, 20 ft. high, bears N. and S.

35.00 Face of cliffs, 30 ft. high, bears N. and S.

37.50 Face of cliffs, 35 ft. high, bears N. and S.

38.00 Face of cliffs, 20 ft. high, bears N. and S. These several cliff faces are in step form.

40.00 Set a volcanic rock, 20x10x8 ins. 12 ins. in the ground, for $\frac{1}{4}$ sec. cor., marked $\frac{1}{4}$ on N. face; and raise a mound of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, N. of cor.

55.00 Point, whence, a peak, covered with slide rock bears S. 4 chs. Descend steep N. W. slope.

73.20 Intersect the W. bdy. of the Tp., 51 lks. N. of old cor. of secs. 7, 12, 13 and 18, heretofore described. At the point of intersection I

Set a volcanic rock, 15x12x5 ins., 10 ins. in the ground, for closing cor. of secs. 7 and 18, marked CC on the E.; with 4 grooves on S., and 2 grooves on N. face; and raise a mound of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, E. of cor.

The old $\frac{1}{4}$ sec. cor. of secs. 13 and 18 being within limits I therefore set no $\frac{1}{4}$ sec. cor. for sec. 18.
