Chains

General.

Course of this  $\frac{1}{2}$  mile is S.89°49'W.

RETRACEMENT OF THE WEST BOUNDARY, OF T.31 N.R.32 E.

From the standard tp. cor. of T.31 N., Rs. 31 and 32 E. above described, in lat. 40°30'N., long. 118°26'W., I retrace N. on a blank line, and at 100 chs. after diligent search I failed to find any trace of fractional cor. of sec.30. At 120 chs. after diligent search, I find no trace of old  $\frac{1}{4}$  sec. cor. of sec.30. At

Remains of old pits and mound of earth bears W. 36 lks.

I identify this mound of earth as the original position of the cor. of secs. 19 and 30. I reestablish this corner at this point as follows:

Set an iron post 3 ft. long, 3 ins. diam., 24 ins. in the ground for cor. of secs. 19 and 30, with brass cap mkd:

dig pits 24x24x12 ins. in each sec. 6 ft. dist., and raise a mound of earth 4 ft. base, 2 ft. high, E. of cor.

Course of line from the tp. cor. of T.31 N., Rs.31 and 32 E. to the said cor. of secs. 19 and 30, is N.0°08'W.

I then set the instrument over said cor. of secs.19 and 30, and continue to retrace North on a blank line and at

79.43 Remains of old juniper post lying alongside of a mound of stone, marked T 31 NR31 ES 24 (other marks not legible), bears W.19 1ks. I identify this post and mound of stone as the original position of the cor. of secs. 18 and 19. I reestablish this corner
