

Retracement of the north bdy. of fracl. T. 41 N., R. 36 E.

Chains May 29, 1914.

The cor. of Tps. 41 and 42 N., Rs. 35 and 36 E., is an iron post, 3 ft. long, 3 ins. in diam., set 24 ins. in the ground, and marked

T 42 N	
R 35 E	R 36 E
S 36	S 31
S 1	S 6
T 41 N	

1913

with pits 24 X 24 X 12 ins., N., E., and W. of post, 4 ft. dist., and S. 8 ft., and a mound of earth, $5\frac{1}{2}$ ft. base, 3 ft. high, S. of cor.

At 7h., a. m., 1. m. t., I set off $21^{\circ} 34\frac{1}{2}'$ N. on the decl. arc, and $41^{\circ} 29'$ N. on the lat. arc, and determine a meridian with the solar;

Thence I run

East on a random line bet. secs. 6 and 31.

39.92 Intersect a point 16 lks. S. of the $\frac{1}{4}$ sec. cor., which is an iron post, 3 ft. long, 1 in. in diam., set 24 ins. in the ground, and marked

$\frac{1}{4}$ S 31

1913

with pits, 18 X 18 X 12 ins. E. and W. of post, 3 ft. dist., and a mound of earth, $3\frac{1}{2}$ ft. base, $1\frac{1}{2}$ ft. high, N. of cor.

I find the old stake and also other evidence of the old $\frac{1}{4}$ sec. cor. at this point, now rebuilt by Strover and Collins, as above described.

80.04 Intersect a point 32 lks. S. of the cor. of secs. 31 and 32, which is an iron post, 3 ft. long, 3 ins. in diam., set 24 ins. in the ground and marked

T 42 N	R 36 E
S 31	S 32

1913

with pits, 18 X 18 X 12 ins. in each sec. $5\frac{1}{2}$ ft. dist.,
