

North bdy. of T. 41 N., R. 39 E.

Chains July 23, 1914.

Beginning at the cor. of secs. 3, 4, 33 and 34 on the N. bdy., at 9h. a. m., l. m. t., I set off $20^{\circ} 11'$ N. on the decl. arc, and $41^{\circ} 28'$ N. on the lat. arc, and determine a meridian with the solar;

Thence I run

West on a random line bet. secs. 4 and 33.

40.00 Intersect a point 8 lks. N. of the $\frac{1}{4}$ sec. cor., which is an iron post, 3 ft. long, 1 in. in diam., set 24 ins. in the ground, with a brass cap, marked

$\frac{1}{4}$ S 33

S 4

1913

and a stone mound, 2 ft. base, $1\frac{1}{2}$ ft. high, N. of cor.

Course of this half mile is S. $89^{\circ} 53'$ W.

I find a granite stone, 24 X 7 X 5 ins, marked $\frac{1}{4}$, at this point and conclude that the cor. described above has been rebuilt at point of old cor. by Strover and Collins.

Beginning a new line at the $\frac{1}{4}$ cor. bet. secs. 4 and 33,

I run

West on a random line on the W. half mile bet. secs. 4 and 33, continuing same chaining.

80.00 Intersect a point 4 lks N. of the cor. of secs. 4, 5, 32 and 33., which is an iron post, 3 ft. long, 3 ins. in diam., set 24 ins. in the ground, with a brass cap, marked
