

Chains

I run East on retracement on the 7th Standard N. along the south side of sec. 33.
 40.00 Find no positive evidence of the $\frac{1}{4}$ sec. cor.
 51.98 Find no evidence of closing cor. for secs. 3 and 4.
 80.03 Intersect N. and S. line 3 lks. N. of the Standard cor. of secs. 33 and 34, previously re-established by me. Course of this mile is S.89°59'E.

To further verify the position of the 7th Standard Parallel N., I run South bet. secs. 3 and 4, T.31 N., R. 33 E., beginning at a point 28.02 chs. W. of the Standard cor. of secs. 33 and 34 which is the position for the closing cor. of secs. 3 and 4, according to the data furnished me from the Surveyor General's office.
 40.24 Find old willow stake set in a stone mound with trace of trench, lying 32 lks. W. of my line. Course of this half mile is S.0°28'W.

I also run south from the closing cor. of secs. 2 and 3 on the 7th Standard Parallel N., and at
 39.57 Intersect E. and W. line 94 lks. E. of the $\frac{1}{4}$ sec. cor., which is a sand stone 10x12x12 ins., marked $\frac{1}{4}$ on W. face, and set in a mound of stone. Course of this half mile is S.1°22'W., and length 39.58 chs.
 79.84 Intersect E. and W. line 1.96 chs. E. of the cor. of secs. 2, 3, 10 and 11, T. 31 N., R. 33 E., which is a redwood post 3x3x36 ins., set in a mound of stone. Scribe markings on post in evidence, but not plain. Course of this half mile is S.1°27'W. and length 40.28 chs.
 October 21, 1913.

October 22, 1913.
 The distance for the two miles, being the distance bet. the cor. of secs. 26, 27, 34 and 35 and the cor. of secs. 28, 29, 32 and 33 is 160.08 chs., and the distance as given in U.S. Deputy Surveyor Dyer's notes between same corners is 159.96 chs. or 79.88 chs. for the line bet. secs. 27 and 34, and 80.08 chs. for the line bet. secs. 28 and 33; therefore I correct the temp. cor. of secs. 27, 28, 33 and 34, 23 lks. east and
 Set an iron post 3 ft. long, 2 ins. in diam., 24 ins. in the ground for a new cor. of secs. 27, 28, 33 and 34, with a brass cap mkd:

and raise a mound of stone 2 ft. base, 1½ ft. high, W. of cor.

The above correction of 23 lks. E. which places the true point for the cor. of secs. 27, 28, 33 and 34 at proportionate distance makes the length of the N. bdy. of sec. 34, 79.94 chs. and the true course of the N. Bdy. of sec. 34, allowing for the falling of 30 lks. N. at the east end and the correction of 32 lks. N. at its west end, is S.89°33'E.

Midway and on a right line bet. the cor. of secs. 26, 27, 34 and 35 and the cor. of secs. 27, 28, 33 and 34,

Set an iron post 3 ft. long, 1 in. in diam., 24 ins. in the ground for $\frac{1}{4}$ sec. cor. bet. secs. 27 and 34, with a brass cap mkd:
