

Retracement of Subdivisions T. 15 N., R. 26 E.

Chains

80.62

Intersect N. and S. line 2.52 Chs. N. of old post cor. 4x4 x 36 ins. above ground, marked with 2 notches on the S. and 4 notches on north, with evident remains of pits in the 4 secs. A properly fence line bears $N 0^{\circ} 25' E$ and west from this cor. The old cor. being greatly decayed I reestablish it in the same position as follows:

Set an iron post 3 ft. long, 3 ins. diam., 24 ins. in the ground for cor. of secs. 19, 24, 25 and 30, with brass cap mkd.;

dig pits, 18 x 18 x 12 ins. in each sec. $5 \frac{1}{2}$ ft. dist.; and raise a mound of earth, 4 ft. base, 2 ft. high, wd. of cor.

The true course of this mile is $S. 88^{\circ} 12' W.$ therefore from the cor. of secs. 19, 24, 25 and 30, I run

$N. 88^{\circ} 12' E.$ on a true line bet. secs. 19 and 30

40.33

Reestablished the $\frac{1}{4}$ sec. cor. as follows:

Set an iron post 3 ft. long, 1 in. diam., 24 ins. in the ground for $\frac{1}{4}$ sec. cor. with brass cap mkd.;
