General Description.

This fractional township is composed of rough mountains; the main ridge being rock rimmed and with a height of over 2,000 ft. above the plain at the S. bdy. The western slope is covered with numerous slides of malpais; the top being on the order of a plateau sloping to the north.

The soil is composed of decomposed granite and malpais, and in some places is very fertile. Sage brush and bunch grass grow abundantly on the top and eastern
