

Retracement of fracl. subdivision of T.31 N., R.43 E.

Chains

Retraced by A.T.Harris:-

May 11: At 8h.00m.a.m.,l.m.t., I set off $40^{\circ}32'N.$ on the lat. arc; $17^{\circ}47'N.$ on the decl. arc; and determine a meridian with the solar at the cor. of secs. 13,18,19, and 24, which is an iron post heretofore described.

Thence I run

West, bet.secs. 13 and 24, at 39.26 chs., fall 1.70 chs. S.of $\frac{1}{4}$ cor. of secs. 13 and 24, which is a granite rock, 12 x 14 x 21 ins. loosely set in a mound of stone. This line bears $N.87^{\circ}34'W.$, and its true length is 39.29 chs.

Thence I run

West, from the $\frac{1}{4}$ sec. cor. bet. secs. 13 and 24, at 40.00 chs. I make a diligent search for cor. of secs. 13,14, 23 and 24, but am unable to find the cor. Set a temp. cor.

May 11, 1914.

Thence I run

West, bet. secs. 14 and 23, at 40.00^{chs.} make a diligent search for $\frac{1}{4}$ cor. of secs. 14 and 23, but am unable to find it.

I continue

West, on the same line bet. secs. 14 and 23, and at 79.58 chs., fall 25 lks. S.of cor. of secs. 14,15,22, and 23, which is a basalt rock 7 x 8 x 12 ins.loosely set in a mound of stone, and markings nearly obliterated. This mile bears $N.89^{\circ}53' W.$, and the length of each half mile is 39.86 chs. This is also the length and bearing of the W. half mile bet. secs. 13 and 24.

May 11, 1914.

Thence I run

North, bet. secs. 14 and 15, at 40.00 chs., make a diligent search for the $\frac{1}{4}$ cor. of secs. 14 and 15, but unable to find old cor.
