

Retracement of N. bdy. of T. 32 N. R 43 E.

Chains

Retraced by A. T. Harris.

From the cor. T. 32 and 33 N., Rs. 43 and 44 E., which is a granite rock here to fore described, I retrace W. bet. secs. 1 and 36., and at 40.10 chs. I fall 21 lks. N. of $\frac{1}{4}$ cor. of secs. 1 and 36, which is a quartzite rock 10 x 14 x 20 ins. above ground, marked and witnessed as described by the surveyor general. The bearing of this line is S 89° 42' W.

I continue W. on same line and at 80.60 chs., fall 36 lks. N. of cor. of secs. 1, 2, 35, and 36, which is a badly decomposed granite rock with markings nearly obliterated. This line bears S. 89° 47' W.

May 7, 1914.

 May 13. At 8h. 00m. a. m., 1.m. t., I set off 40° 40' N. on the lat. arc; 18° 18' N. on the decl. arc; and determine a meridian with the solar at the old cor. of secs. 1, 2, 35 and 36, heretofore described.

Thence I retrace W, bet. secs. 3 and 35.

At 40.00 chs. am unable to find any old cor. after a careful search, and at 79.72 chs. I fall 3.71 chs. N. of cor. of secs. 2, 3, 34, and 35, which is a granite rock 14 x 8 x 6 ins. above ground, marked and witnessed as described by the surveyor general. The line bears S 87° 21' W., and the true length is 79.78 chs.

From the cor. of secs. 2, 3, 34, and 35, I retrace W. bet. secs. 3 and 34; at 40.67 chs. I fall 29 lks. N. of $\frac{1}{4}$ cor. of secs. 3 and 34, which is a basalt rock 30 x 24 x 16 ins. above the ground, marked and witnessed as described by the surveyor general. The line bears S 89° 35' W.

I continue W. on the same line, and at 80.27 chs. I fall 23 lks. N. of cor. of secs. 3, 4, 33, and 34, which is a large granite boulder in place, 6 x 6 x 8 ft. above the ground, marked as described by the surveyor general. The line bears N. 89° 55' W. From this point I continue W. on same line, ^{bet. secs. 4 and 33,} and at 40.00 chs. I find no old cor. after
