

## Retracement of Portion of Subdivisions of T. 32 N., R. 44 E.

Chains Retracement by H.W.Reppert:-

May 4, 1914: At 8h. 10m., a.m., l.m.t., I set off  $40^{\circ} 35'$  N. on the lat. arc;  $15^{\circ} 52'$  N. on the decl. arc; and determine a meridian with the solar at the cor. of secs. 4, 5, 32 and 33 on the Hatch and Eaton line on the south boundary of the township, previously described.

Thence I retrace

North bet. secs. 32 and 33.

40.08 Intersect E. and W. line 30 lks. west of the old  $\frac{1}{4}$  cor. of secs. 32 and 33, which is a quartzite stone  $10 \times 10 \times 14$  ins. firmly set in a mound of stone, mkd. and witnessed as described by the Surveyor General. The course of this  $\frac{1}{2}$  mile is therefore N.  $0^{\circ} 26'$  E. I continue my retracement along same line.

80.53 Intersect E. and W. line, 63 lks. W. of the old cor. of secs. 28, 29, 32 and 33, which is an altered granite  $6 \times 10 \times 12$  ins., firmly set in a mound of stone, mkd. and witnessed as described by the Surveyor General. The course of this last  $\frac{1}{2}$  mile is therefore N.  $0^{\circ} 28'$  E. and the distance is 40.45 chs.

-----  
From the cor. of secs. 28, 29, 32 and 33 I retrace

North bet. secs. 28 and 29.

40.00 Set temp.  $\frac{1}{4}$  sec. cor. No traces of the old  $\frac{1}{4}$  cor. are found after diligent search. I continue my retracement along same line.

79.74 Intersect E. and W. line, 84 lks. W. of the old cor. of secs. 20, 21, 28 and 29, which is a granite stone,  $8 \times 6 \times 10$  ins., set in a mound of stone, mkd. and witnessed as described by the Surveyor General. The course of this mile is therefore N.  $0^{\circ} 36'$  E.

-----  
From the cor. of secs. 20, 21, 28 and 29 I retrace

West bet. secs. 20 and 29.

40.00 Set temp. point for the  $\frac{1}{4}$  cor. of secs. 20 and 29. No traces of the old  $\frac{1}{4}$  cor. are found after diligent search. I continue my retracement along same line.
