

South Boundary of T. 9 N., R. 66 E.

1.

Chains

Survey commenced June 18, 1915.
For description and test of instrument see page 1 of
book containing survey of the South, East, West and North
boundaries of T. 9 N., R. 67 E.

June 24, 1915: At 8h 32m a.m., 1.m.t., I set off $38^{\circ} 35' N.$ on the lat. arc; $23^{\circ} 27' N.$ on the decl. arc; and determine a meridian with the solar at the cor. of secs. 2, 3, 34 and 35, Tps. 8 and 9 N., R. 66 E., which is a cedar post, 2x4 ins., 3 ft. long, lying on the ground but marked and witnessed by very dim traces of old pits and mound as described by the Surveyor General. As this old cor. post is somewhat decayed, I reestablish same in exact position as follows:
Set an iron post, 3 ft. long, 3 ins. in diam., 24 ins. in the ground for cor. of secs. 2, 3, 34 and 35, with brass cap mkd.,

1915

Dig pits, 18x18x12ins. in each sec. $5\frac{1}{2}$ ft. dist., and raise a mound of earth 4 ft. base, 2 high W. of cor.
Set old cor. post alongside of iron post
Thence I run

East bet. secs. 2 and 35.

Gently rolling land, medium sage brush, greasewood, shadscale and scattering grass.

40.00 Set an iron post, 3 ft. long, 1 in. diam., 26 ins. in the ground for $\frac{1}{4}$ sec. cor., with brass cap mkd.,
