

A portion of the South boundary of T.5 S.,R.66 E.

## Chains

and raise a mound of stone, 3 ft. base, 2 ft. high, W. of cor.

Cor. stands 275 ft. above bottom of canyon.

Land, rough and mountainous, with a general exposure and drainage to the W. and NW. on E.  $59\frac{1}{2}$  chs.; to the S. on W.  $20\frac{1}{2}$  chs.; soil, very stony on surface, of porphyry, limestone, sandstone and granite formation; 4th rate, except that in the bottom of Meadow Valley canyon, which is a pliable, damp gravelly sand of medium texture, with some scattering loose boulders on surface; scattering growth of cedars and pinon pine on E.  $52\frac{1}{2}$  chs.; no timber on W.  $27\frac{1}{2}$  chs.; undergrowth, scattering juniper, oak brush, greasewood, service berry, mountain rush, soap weed, sage brush, buck brush and bunch grass; too steep and stony for grazing.

Note: Owing to impassable ledges, it is impossible to continue survey W. or N.; therefore, I abandon the survey of the south boundary at this sec. cor.

---

Subdivision of T.5 S.,R.66 E.

From the cor. of secs. 1,2,11 and 12, herein and after described, I survey

N.0° 01'W., bet. secs. 1 and 2.

Over rugged mountainous land, through scattering growth of scrub cedars and scattering undergrowth of sage brush, juniper, mountain rush, greasewood and grass.

Ascend gradually.

8.80 Top of ascent, 55 ft. above sec. cor., bears N.65°W. and SE.

Thence nearly level.

18.80 Point of descent, bears NE. and S.15°W.

26.20 Head of canyon, 110 ft. below point of descent, drains W.

Ascend.
