July 1, 1915.  
Note: Although the West boundary of T. 9 N., R. 67 E., has not been run nor the cor. of Tps. 9 and 10 N., Rs. 66 and 67 E., yet been established, to save time on this date, I commence the random North boundary line of T. 9 N., R. 67 E. and establish a temp. cor. for Tps. 9 and 10 N., Rs. 66 and 67 E., later running the West boundary and tying to this temp. Tp. cor., thereby obtaining the true course of the North Boundary as follows:  
From the cor. of Tps. 9 and 10 N., Rs. 67 and 68 E., just described  
I run  
West on a random line, along the N. bdy. of T. 9 N., R. 67 E., setting temp. ¼ sec. and sec. cors. at intervals of 40.00 chs.  
July 1: At this point, at 12h. 03m., p.m., 1.m.t., I set off 23° 10' N. on the decl. arc and observe the sun on the meridian, the resulting latitude is 38° 41'.  
Set temp. point and quit work for the day.
