The land here has been washed but dim traces of old pits are visible; therefore at the exat point, where old Tp. cor. is found, I reestablish same as follows: Set an iron post, 3 ft. long, 3 ins. in dia., 24 ins. in the ground for cor. of Tps. 6 and 7 N.,Rs. 66 and 67 E., with brass cap marked

I set the old Tp. cor., alongside of iron post. August 5, 1915: At this cor., I set off $17^{\circ} 08' N.$, on the decl. arc; and at 12h 06m p.m., l.m.t., observe the sun on the meridian; the resulting latitude is $38^{\circ} 25'$.
